MAINTENANCE:

Use a damp chamois to clean the glass frame.

UNDER NO CIRCUMSTANCES SHOULD METAL POLISHES, CLEANERS, ABRASIVES OR AEROSOL SPRAYS BE USED.

While the latest finishing techniques have been used on the metal frame, such finish cannot be unconditionally guaranteed. The main cause of deterioration, apart from certain atmospheric conditions, is improper cleaning.

To clean the crystals, polish with a soft, damp chamois.

You are cleaning delicate crystal... Take the greatest care.

IMPORTANT:

Do not clean crystals in a dishwasher. The finish of the metal clips and hangers will be ruined and the crystals may be damaged.
